

FROM THE DUGOUT

Welcome back to the Vistavis Community Stadium for tonight's game against Wick.

Wick have reversed the fixture at our request so it is played here, so huge respect to them and I wish their travelling contingent a safe journey home.

Saturday was underwhelming and far from what we expect. Frustrating, embarrassing, lacklusture ...I could go on!

We have to move past this quickly and tonight I have demands of the lads as I know you will have too.

Wick will be competitive as they have proved with their win over Brett Pitman's Midhurst side last week.

For me it's imperative you get behind the boys tonight. We are fully aware the front four are not firing which is a massive concern. I'm not going to write these notes and mug the fans off as you all have eyes. We have had 35 chances in the first three league games and scored a grand total of no goals. It isn't good enough.

It's could have, would haves at the moment. We should have been 2/3 up half time at Haywards Heath, should have scored 4/5 against Guernsey, should have had two on Saturday but we haven't.

We are making changes tonight based on what we think turns the tide. There are 21 players in this squad and alongside myself and the management team we are all accountable. The hard work continues behind the scenes but what needs to happen tonight is a much better outcome.

Once this side becomes clinical we will be a different animal, and that has to start tonight.

I ask again for your support, which is magnificent as always and hopefully we deliver the three points you as fans all deserve

Enjoy the game - Andy
